SLIDE STRUCTURE

ST-CON1-060-U-50

WAVE SLIDE
GL-VAG1-060-U-00

CURVED SLIDE
GL-COU1-050-U-00

MATERIALS

- Coloured, UV-resistant high-density polyethylene (HDPE) decks and panels
- Aluminum frame
- Stainless steel hardware
- Anchored on hot-dipped galvanized stringer system

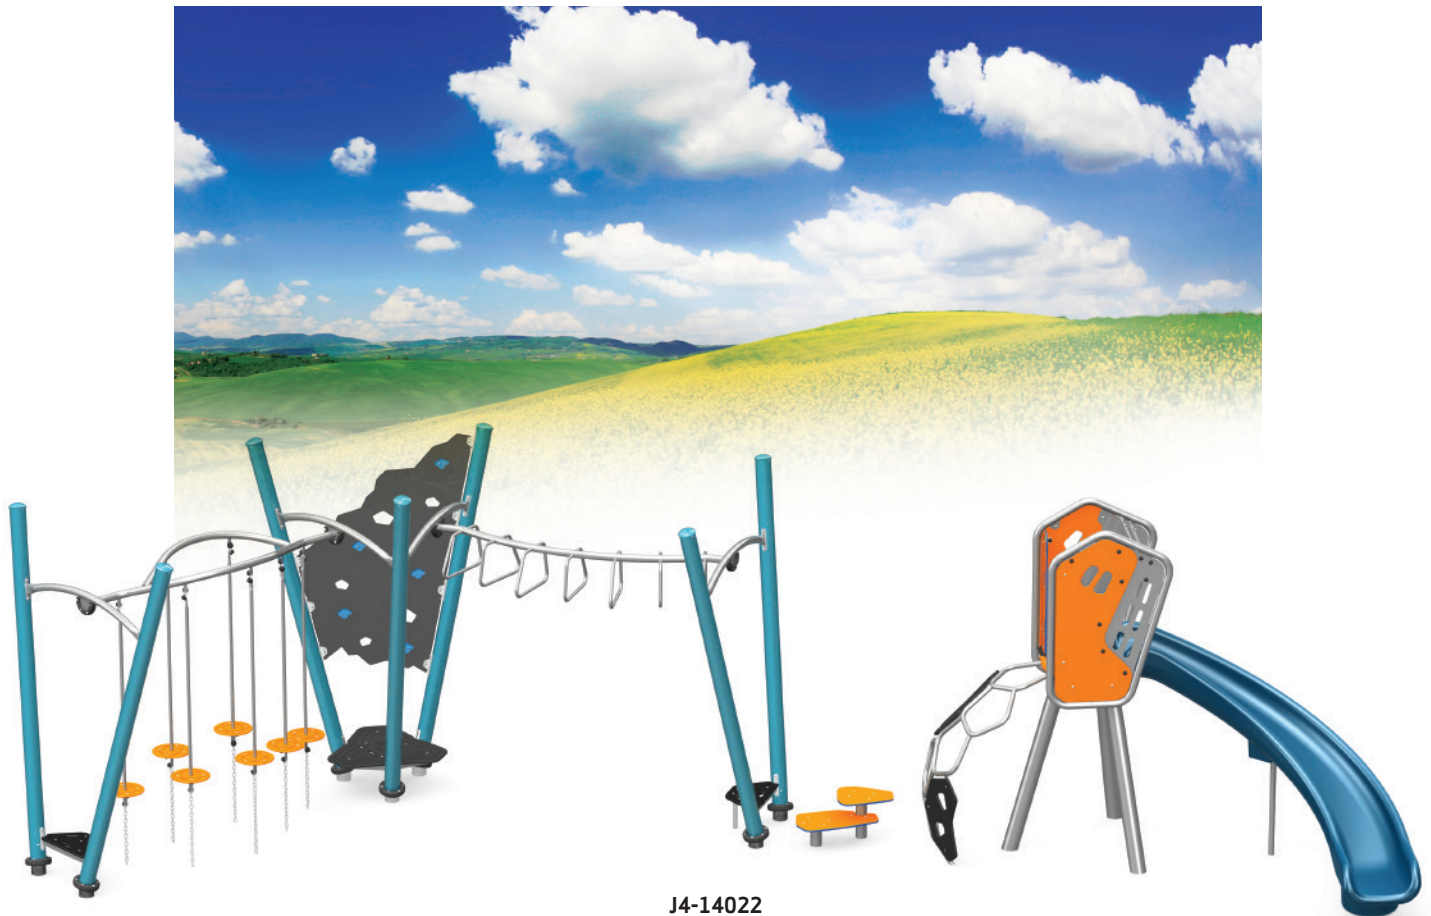

OTHER IMPORTANT FEATURES

- Meets CAN CSA-Z614 standard
- IPEMA certified (in progress)
- Concrete-free ground anchoring system included

Note: the curved slide is not available in the 6' (1.8 m) height.

The specific features of each J4 slide, such as the age category, capacity, surface area required and fall height, vary based on the model selected. Ask your Jambette specialist about the specific features of your chosen model.

NEW SLIDES

J4-14022

The new J4 slides pair perfectly with the J4 challenge circuits, providing an extra activity sure to attract children on a quest for challenges and thrills made to their measure.

Note: Products features are subject to change without notice.
