NEW

MY FREE PLAY module: a new, original Jambette signature concept.

A public play area that offers a range of activities to get children moving while fostering their physical and social development and that adds another dimension — CREATIVITY.

Jambette.com

An exciting new dawn

MY FREE PLAY is the first free play equipment introduced in the institutional recreational equipment industry.

MY FREE PLAY originates from the ADVENTURE LAB, the free play laboratory created by Jambette and Le Patro de Lévis in 2019.

MY FREE PLAY was also made possible through the research on free play commissioned by Jambette and conducted by the Université du Québec à Rimouski in collaboration with the Université du Québec à Trois-Rivières.

MY FREE PLAY also draws inspiration from the free play initiatives led by many organizations in Quebec, Canada and elsewhere in the world.
