

NEW

IMAGINE

CitipleX

A modern, playful and creative tower for children thirsting for new challenges.

A scalable and inclusive urban play module that includes accessories and games right inside and under its platforms for people with reduced mobility.

Many new innovative and original materials, such as metals with industrial finishes, polyethylene that looks like wood and wire mesh floors. Down the road, you could combine several units to create a mini-city.

The dream cabin taken to a whole new level, where imagination has no limit!
